

Enzyme Immobilization

Service	Deliverable	Time	Price
Immobilized activity screening - 48 carriers	Report on initial activity of each carrier	2 weeks	\$4,000 - \$6,000
Immobilized activity screening - >48 carriers	Report on initial activity of each carrier	2 - 3 weeks	\$6,000 - \$12,000
Immobilization condition optimization	Report on conditions for optimal enzyme immobilization	1 week	\$20 / well
Immobilized stability followup	Report on immobilized enzyme stability	As needed	\$500 / test
Immobilized activity assay development	Description of optimized experimental setup	1 week	\$3,000 - \$4,000
Immobilized enzyme reactor prototype	Report on yield from continuous production	2 - 4 weeks	\$10,000 - \$20,000

The final quote value will depend on the need for special reagents and the possibilities for parallel experimentation. Please call for a free quote.
